

## Proximity Cards & Tags

A complete range of proximity tags & cards from CDVI to compliment the reader technology chosen. From standard proximity to long-range and smart, our cards & tags offer flexibility for the management of the users.

The range includes:

- Proximity tags
- Proximity cards
- Long range cards\*\*

\*\* the long range active cards include a battery which can be changed by the user, increasing the life of the card/tag. The active cards can have a proximity device installed within, creating a dual-technology card which is ideal for car parks and office use.

The proximity cards and tags are 125kHz. The tags are designed to be fixed to a keyring, while the ISO card is designed for use with printers to incorporate photo ID.
